LAKEWOOD RANCH DENTAL

Dr. Kanter And His Team Deliver Renewed Confidence And Brighter, Whiter Smiles Every Day

BY E. ADAM PORTER

Another festive holiday gathering with family and friends, and there you are right in the middle, making memories and capturing moments, beaming for the camera at every opportunity. It wasn't always this way. In years past, you tried to be the one behind the camera, and when you were in a photo, it was always in the back, without so much as a grin. Last Christmas, as a gift to yourself for the new year, you decided, "No more!"

You went to see Dr. Michael Kanter at Lakewood Ranch Dental. Dr. Kanter and his caring, professional team made you feel so welcome, so comfortable. Their skilled care gave you back your smile, your confidence, and, more than that, they gave you back some of the joy your Christmases had been missing. This year, not even the lights on the tree are shining as bright as your smile.

The happiness expressed here by Dr. Kanter's staff is a reflection of the joy Lakewood Ranch families experience from a team that cares.

Committed to Making a Difference

Growing up in Miami, Michael Kanter was inspired to pursue dentistry by his uncle. "He was a super-nice guy, just such a wonderful person. He cared so much, and his patients knew it. To this day I still have

LUMINOUS ELECTRIC

John and Jo Levy live and work in LWR.

You can trust their company for all your electrical needs.

BY E. ADAM PORTER

Your holiday party is coming up this weekend, and the weather will be perfect to open the sliders and let the fun spill out onto the patio. Thanks to Luminous Electric, you have everything you need to keep the party humming out there, too. John Leavy came by and helped you design a plan to power your new outdoor kitchen and bar, and your poolside TV. You also had them run lights around the screen and into the backyard, so you have the perfect illumination to set any mood, from family gatherings to fun with friends to romantic nightcaps.

Thanks to Luminous Electric, your patio and backyard are now an ultimate entertainment destination, day or night.

John and Jo Leavy proudly offer a three-year warranty on all the work their company does.

Hometown Pros You Can Trust

John Leavy learned the electrical trade growing up in Ireland. He enjoyed the work, the variety,

"LUMINOUS ELECTRIC," Continued from pg. 1

and the opportunity to help people. "I love working in different environments, different jobs, meeting people, and helping them."

When John and his wife, Jo, decided it was time to resettle in Florida, they found exactly what they were looking for in Lakewood Ranch.

"We chose Lakewood Ranch, both for our family and for our business," Jo says. "With four boys, we wanted to be in a family-oriented community. We love going down to events on Main Street, and we have made some good friends here, lifelong friends. It feels like we've been here all our lives."

Bringing a lifetime of hands-on experience with him across the pond, John earned his Florida residential and commercial licenses in 2011, founded Luminous Electric, and set out to deliver the best residential electric service in Lakewood Ranch. "From installing a new

doorbell to a full panel to anything inside or outside your home—we want to be the best ... Over the past five years working in the area, we've grown, but we're still a family business, still the hometown electrician you can trust.

"We hire the best professional electricians, keep up with training and continuing education, make sure they're technically well-equipped, and proudly offer a three-year warranty on our work," John says.

"Lakewood Ranch has become our home. Our kids go to school here; they're involved in the local soccer and swimming clubs, so, of course, we're involved, too. With four boys, what they're into is what we do, and we're grateful to have a community that offers so much for our kids. For us, when we walk down Main Street, we always run into customers and friends. That sense of community is very important, and the support from

Whether it's a big job or simply installing a fan, Luminous wants to be the best—the hometown electrician you trust.

this community has meant a lot to us," Jo adds.

Recently, John says he's been getting a lot of calls for home charging stations for electric cars as well as whole-house generators and surge protectors.

"The partnership with the local Tesla dealership has been tremendous, being able to help their customers and being able to offer the

protection families want when the storms come, has been a rewarding opportunity. But, in the end, no matter why you call Luminous, we want you to feel like you're calling a neighbor or a friend."

Totally Satisfied

Jen and Andy Clark needed someone to run some electric for their new outdoor kitchen. "We called

Luminous, and they were extremely friendly and professional through the entire process. They went out of their way to make scheduling easy and were available when we needed them. This was very important, because we had to coordinate the job with several other trades.

"John came out with one of the techs—you know, it was nice to talk to the owner of the company—and they looked at the job, which would require some intricate, detailed work. John had to coordinate directly with the plumber and the electronics installer, so he had to come out several times, but he was always there when he said he would be.

"Luminous finished the job, and John called about a week later just to make sure we were happy with everything. Really appreciated that. It's been about a year now, and everything is working great!"

Polite, Professional Problem Solvers

Lily Behrends had an electrical issue she couldn't figure out, so she called Luminous. "We had some outlets that just kept blowing or tripping the breaker, and we didn't know why this would keep happening. We had used Luminous Electric in the past for some other things, and we knew we could trust them.

"We called on a Saturday, and they offered to send someone right out, which we appreciated, but we thought this could wait until Monday. The tech called to let us know he was on his way. He was very polite and professional the entire time he was in our home. Speaking with him and watching him work, we could tell he knew what he was doing. The technician found the problem, got it fixed, and we are very happy."

No matter why you call Luminous, their team wants to make you feel like you're calling a neighbor or a friend.

Best of the Best

Lisa Pring is in the middle of a renovation project, so she needed an electrician who could spot problems and devise clever, cost-effective solutions.

"We were working on a garage extension and needed some electrical work done, so we called Luminous Electric. They sent Daniel out, and we absolutely love him! He's punctual, courteous, and knows how to solve problems. And, because this is an ongoing remodel with a lot of different trades involved, timeliness is very important. At one point we needed some electrical wiring run under what was going to be brick walkway. Luminous made sure to have someone out there before the paver guys showed up so that project wouldn't be delayed. That made a big difference for us! Since then, Daniel has fixed the lights in the living room, installed all the outlets and switches, rewired the entire back of the house, and he's always done an excellent job with a smile on his face, even when we sent him up into the attic.

"We will never hire another electrician. Luminous is the best of the best!"

Luminous Electric is located at 8023 34th Avenue East in Bradenton, 34211. For more information, go to www.lumelect.com or call 941-727-0272.
